"It was a great experience. You have a message that people are seeking out and want to hear, and you may be creating a tribe that will have deep roots one day. You're connecting people with themselves again, reminding them that awe and wonder are a part of life, that the mediocre and mundane is to be avoided; that we are meant to be creatures of excellence, not of habit.."

Lloyd De Jongh

Researcher, Speaker & Emotional & Social Intelligence Trainer.

"Many thanks for your superb "Secrets of Success" workshop. Not only was it truly inspiring and memorable but it was above and beyond what we asked you to deliver. The whole Channel Management Department thoroughly enjoyed it and people are still quoting things from all the material we covered. Personally, it has given me the desire to have more focus in my life in terms of the future and how I want to live my life.."

Laura E Wyatt

Manager – Etisalat Marketing Department.

"Just brilliant and insightful. Breathtaking from the very first words. Solid steps and a good formula/process for mastering and positively dealing with different types of situations as well as people that could make a person's life a fantastic adventure. It was motivating to get affirmation that every problem we face, whether money, health, relationships or a combination of those, has a perfect solution...and that anything is easy if you 'know' how. Thank you Dave for being just a great example of all that is good in our world. "
